# UKRAINE IS AT WAR

On 24 February 2022, Russian armed forces launched a large-scale invasion of Ukraine. As the war continues today, Ukraine faces relentless daily attacks and immense human suffering while defending its freedom and our common European values.

As the war endures, the need for humanitarian help is greater than ever, and millions of Ukrainians, continue to rely on our support.

**WE NEED YOUR SUPPORT!**

# CALL FOR HELP

Since February 2022, Action Ukraine EU has been providing urgent humanitarian aid to Ukrainians in Belgium and in Ukraine. Through our volunteer team, we have supported thousands of families, children, elderly people, and other vulnerable groups with food, clothing, hygiene products, medical supplies, and essential items.

**To continue this vital work, we urgently need premises in Brussels to store, repackage, and dispatch aid. The space requirements are simple: electricity, water, a toilet, 40–60 m<sup>2</sup> for storage and delivery, and 10–15 m<sup>2</sup> for packing parcels. The condition of the premises is not critical, but it is essential that the space is provided free of charge, as our organisation operates entirely on a volunteer basis.**

**Support that goes from the heart becomes action.** Your support would directly enable us to reach families with disabled children, large families, the elderly, hospitals, orphaned children, and displaced persons—softening their hardship and giving them hope. Every parcel we send, every kit we distribute, makes a tangible difference.
